

Speaker, Samantha made their day and their trip.

I have a sizable stack of letters from Oregonians who took the time to write after their trip to Washington, D.C., to thank me for Samantha's assistance and her dogged determination to make sure their experience was memorable.

Mr. Speaker, Samantha's energetic and helpful demeanor was equally appreciated by her coworkers. She was attentive in recognizing when something needed to be done, taking the initiative to complete projects and lend others a helping hand. Whether she was drafting letters to address a constituent's concerns or keeping the information on my web site up to date, Samantha's contributions were always appreciated and on target. During her time in my office, she took a staff assistant role and developed it into something much more.

Samantha's attitude and intellect will serve her well as she continues her public service at the Department of the Treasury. Mr. Speaker, she will be a difficult person to replace. Sam, thank you for a job well done and good luck in the future.

CENTRAL NEW JERSEY CELEBRATES THE NORTH BRUNSWICK  
TOWNSHIP HIGH SCHOOL ROBOTICS TEAM

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 2, 2003*

Mr. HOLT. Mr. Speaker, I rise today to recognize the victory of the 37 member team from North Brunswick Township High School who built the robot, Evil Machine, and took second place in the national FIRST (For Inspiration and Recognition of Science and Technology) Robotics Competition in Houston Texas. Building a champion robot is more than creating a machine with technical prowess. It represents hours of hard work, dedication, collaboration and communication among students, teachers, mentors and community members. FIRST is an example of technology at its finest. It involves identifying a problem, developing a hypothesis to solve it and implementing the solution.

To win second place in a national competition against 300 other high school robots is a good accomplishment. Each team that participated in FIRST was required to design and build a robot that solved the "game problem" using "kit parts" and a standard set of rules. Over a six-week period, the North Brunswick Township High School team designed "Evil Machine". His task for the competition was to collect and stack plastic storage containers on their side of the playing field, to knock down walls, and during the two-minute competition, to keep the opposing team's robots from doing the same activity.

FIRST is a critical program because it reinforces science education. Science is not just another subject. It is fundamental like reading and math. Science brings order, harmony, and balance to our lives. It teaches us that our world is intelligible and not capricious. A scientific framework provides us the skill for lifelong learning, for creating progress itself. These are very important skills for the very complex times in which we live.

I ask that all the members join me in congratulating these 34 North Brunswick Township High School Students for their excellence and their FIRST Robotics victory.

CONGRATULATING BOYD AND  
IRENE MADDOX ON 75 YEARS OF  
MARRIAGE

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 2, 2003*

Mr. LEWIS of California. Mr. Speaker, we in America have a penchant celebrating milestones in just about every endeavor, be it sports, business or even school attendance. But today I would like to recognize a truly amazing milestone, which is only rarely reached in our modern world: the 75th wedding anniversary of Boyd and Irene Maddox of San Bernardino County.

Boyd Maddox and Irene Crozier are lifelong residents of the Old West, growing up in the rugged early 20th-Century New Mexico Territory, marrying in Tombstone, Arizona and finally settling at the 250,000-acre Las Flores Ranch in the Mojave Desert—a working cattle ranch that still provides good employment to the cowboys of the 21st Century.

Boyd was born in Lordsburg, New Mexico in 1908 and grew up on a cattle ranch where he got to know a young neighbor girl named Sandra Day—later to become Supreme Court Justice Sandra Day O'Connor. After graduating from New Mexico Military Academy, Boyd became a messenger for Continental Bank of Los Angeles, and then worked his way up through a series of banks to become chief bookkeeper of the Douglas State Bank in southern Arizona.

Irene had graduated from Tombstone High School, and married the young bank officer on June 10, 1928 at Old Adobe Episcopal Church in her hometown. The couple homesteaded for 2 years, but the depression forced Boyd to go to work for the Civilian Conservation Corps as a bookkeeper.

A former bank employer had purchased a cattle ranch—the Las Flores Ranch in the Mojave Desert, and urged the Maddox's to come west and help him manage it. They finally visited in September 1938, and never left. Boyd became the working general manager and stayed for the next 50 years until his retirement. Irene raised Boyd, Jr., who is now 67.

Mr. Speaker, Boyd and Irene Maddox are enjoying an active retirement, traveling, visiting friends and reminiscing. I'm sure we would be spellbound by the stories they could tell of their remarkable life together all these years. Please join me in congratulating them on their 75th wedding anniversary, and wishing them many more years to come.

HONORING LEGENDARY PENN  
HIGH SCHOOL FOOTBALL COACH  
CHRIS GEESMAN

HON. CHRIS CHOCOLA

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 2, 2003*

Mr. CHOCOLA. Mr. Speaker, I rise today to pay tribute to a living legend, Penn High School football coach Chris Geesman from Mishawaka, Indiana.

Coach Geesman recently announced he plans to retire from coaching at the end of this school year.

Since 1972, Coach Geesman has led the Kingsmen to five state championships and has never suffered a losing season.

Mr. Speaker, that's remarkable.

He retires in second place on the All-Time Football Coaching Leaders in Indiana with 339 victories. Only one coach in Indiana high school football history had more wins, but that coach also had more losses.

In 1996, he was inducted into the Indiana Football Hall of Fame.

Coach Geesman's impressive resume includes five state championships (1983, 1995, 1996, 1997, and 2000), three state runner-up finishes (1989, 1991, and 1999), eight semi-state crowns (1983, 1989, 1991, 1995–1997, and 1999–2000), and 13 sectional trophies (1979, 1983, 1987, 1989, 1991, and 1995–2000).

Penn High School football was also a force to be reckoned with under Coach Geesman's guidance in the Northern Indiana Conference by winning 22 NIC titles, including 17 in a row from 1986 through 2002.

Since a loss back in 1985, the Kingsmen have won an astonishing 117 straight NIC games.

The Kingsmen also established a state record with 89 consecutive regular-season victories running from 1985 to 1996 and own a state-record 22 straight playoff victories.

Coach Geesman's Kingsmen were ranked Number 1 in all or parts of a record 13 seasons for a record total of 87 weeks since 1977.

Coach Geesman has also had many players move on to play at the collegiate level and even a couple have advanced to play in the National Football League.

Mr. Speaker, I know the fans of Penn High School football and the Mishawaka community will certainly miss Coach Geesman, but I wish him well in his future endeavors.

#### RECOGNIZING THE LIFE OF MISSOURI HIGHWAY PATROL TROOPER ER MICHAEL L. NEWTON

### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 2, 2003*

Mr. GRAVES. Mr. Speaker, I proudly pause to recognize the life of Missouri Highway Patrol Trooper Michael L. Newton. His life, though tragically cut short, was enriched by numerous accomplishments in his career, and a loving, caring family.

Mike served the Missouri Highway Patrol with dignity and passion. He set career goals that established himself as a competitive officer. He was ardent about making as many driving-while-intoxicated and traffic arrests as he could and it was this determination that made him a standout among his fellow officers. His eagerness and drive established him as an officer that was well-liked by many of his peers.

Mike is survived by his loving wife Shonnie and two sons, Tyler and Devon. Many of the Missouri Highway Patrol have pledged to help the family through these trying times. It is my hopes that his young boys will always remember how passionate their father was about his job and how diligently he served the people of Missouri.

Mr. Speaker, I respectfully ask that you help me in recognizing and remembering Missouri Highway Patrol Trooper Michael L. Newton, his accomplished career, and the remarkable family he leaves behind. God Bless them.

#### PRO-LIFE ACTION MUST ORIGINATE FROM PRINCIPLE

### HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 2, 2003*

Mr. PAUL. Mr. Speaker, as an obstetrician who has delivered over 4000 children, I have long been concerned with the rights of unborn people. I believe this is the greatest moral issue of our time. The very best of the western intellectual tradition has understood the critical link between moral and political action. Each of these disciplines should strongly inform and support the other.

I have become increasingly concerned over the years that the pro-life movement I so strongly support is getting further off track, both politically and morally. I sponsored the original pro-life amendment, which used a constitutional approach to solve the crisis of federalization of abortion law by the courts. The pro-life movement was with me and had my full support and admiration.

Those who cherish unborn life have become frustrated by our inability to overturn or significantly curtail *Roe v. Wade*. Because of this, attempts were made to fight against abortion using political convenience rather than principle. There is nothing wrong *per se* with fighting winnable battles, but a danger exists when political pragmatism requires the pro-life movement to surrender important moral and political principles.

When we surrender constitutional principles, we do untold damage to the moral underpinnings on which our Constitution and entire system of government rest. Those underpinnings are the inalienable right to life, liberty, and property. Commenting upon the link between our most important rights, Thomas Jefferson said "The God which gave us life gave us at the same time liberty. The hands of force may destroy but can never divide these."

M. Stanton Evans further explained the link between our form of government and the rights it protects when he wrote, "The genius of the Constitution is its division of powers—summed up in that clause reserving to the several states, or the people, all powers not expressly granted to the federal government."

Pro-lifers should be fiercely loyal to this system of federalism, because the very same Constitution that created the federal system also asserts the inalienable right to life. In this way, our constitutional system closely links federalism to the fundamental moral rights to life, liberty, and property. For our Founders it was no exaggeration to say federalism is the means by which life, as well as liberty and property, are protected in this nation. This is why the recent direction of the pro-life cause is so disturbing.

Pro-life forces have worked for the passage of bills that disregard the federal system, such as the Unborn Victims of Violence Act, the federal cloning ban, and the Child Custody Protection Act. Each of these bills rested on specious constitutional grounds and undermined the federalism our Founders recognized and intended as the greatest protection of our most precious rights.

Each of these bills transfers to the federal government powers constitutionally retained by the states, thus upsetting the separation and balance of powers that federalism was designed to guarantee. To undermine federalism is to indirectly surrender the very principle upon which the protection of our inalienable right to life depends.

The worst offender of federalism is the so-called Unborn Victims of Violence Act, which not only indirectly surrenders the pro-life principle but actually directly undercuts the right to life by granting a specific exemption to abortionists! This exemption essentially allows some to take life with the sanction of federal law. By supporting this legislation, pro-lifers are expressly condoning a legal exemption for abortionists—showing just how far astray some in the pro-life community have gone.

Even the Partial Birth Abortion Ban Act, which is an integral part of the current pro-life agenda, present a dilemma. While I have always supported this Act and plan to do so in the future, I realize that it raises questions of federalism because authority over criminal law is constitutionally retained by the states. The only reason a federal law has any legitimacy in this area is that the Supreme Court took it upon itself to federalize abortion via *Roe v. Wade*. Accordingly, wrestling the abortion issue from the federal courts and putting it back in the hands of the elected legislature comports with the Founder's view of the separation of powers that protects our rights to life, liberty, and property.
